

Adelaide Fungal Studies Program (AFSG) 2021

Meetings

Monthly AFSG meetings will be in the Goodman Lecture theatre next to the State Herbarium and near the State Wine Centre on Hackney Road.

Most meetings are planned for Monday except for the meeting in June which is on a Tuesday.

The meetings will be from 7pm-9pm

The meetings will provide an opportunity to share photos from previous foray and seek identification. If unable to attend meeting and have fungi from foray that require identification then Thelma has offered to assist with identification by email.

To meet Covid regulations attendees will be required to sign in or use QR code. The room capacity under current restrictions is 30 people. As the first meeting on 1st March can be larger there will be a RSVP to me for this meeting by 25th January.

Dates

1st March

- AGM
- Tips on taking fungi photographs to assist with identification

8th June (TUESDAY)

- Fungi workshop –characters used for identification Pam Catcheside. Taking photographs of fungi –David Catcheside

2nd August
